Summary of Changes

- Removed reference to Fire Captain since that position currently does not exist in our pay grades.
- Added a line that states the applicant may not be on probation when applying.
- Removed the requirement for an applicant to get a letter of recommendation from their Battalion Chief. If we are promoting to the position of Battalion Chief, the applicant may already be in an Acting position and may not have a Battalion Chief as a supervisor.
- Updated the language stating a newly promoted employee will serve a probation period to refer to the City Personnel Policy.
